Carole Doucet heads a private practice in executive and business coaching, paired with consulting expertise in corporate financing and strategic planning. For over 25 years, her keen business sense and clarity of vision have helped hundreds of successful leaders.

“Every day, leaders face many challenges that influence both the day-to-day operations and the future of their organizations and of the economy. That is why I am passionate about helping high-performance executives, managers and professionals progress faster, with greater impact, confidence and satisfaction. How? By contributing to see more clearly in fully developing their talents and leadership, and optimizing their strategic thinking and planning. This helps them develop and bring to life their vision with more inspiration and greater self-assurance. My professional services in coaching and business consulting, and my talent in bringing my clients to the next level, have been recognized to help maximize focus, performance and satisfaction through an integrated approach that is personalized, structured and creative.

“I’ve been coaching for over a decade. I’ve also managed service companies, served as CFO, and taken on various responsibilities within financial institutions. In 1998, I started my first management consulting firm, and then, for eight years, was a partner in a consulting firm specializing in corporate financing. My collaboration with that firm continued after I left to create Coaching d’affaires Carole Doucet in 2009. My professional experience allows me to provide my clients and network of partners with solid expertise in SMEs, consulting firms and financial institutions.”
